DETAILED ACTION

1. The Applicant's amendment filed on August 14, 2006, was received. Claims 22, 24-29, 31-32, 35-39 and 68 are pending. Claims 22 and 24-28 were amended. Claims 1-21, 23, 30, and 33-34 have been cancelled. New dependent Claim 68 has been added. Since Claims 22, 24-29, 31-32, 35-39 and 68 are in condition for allowance, the withdrawn invention of claims 40-67 have been cancelled by Examiner's Amendment herein.

Drawings

2. The drawings were received on August 14, 2006. These drawings are approved.

EXAMINER'S AMENDMENT

3. Authorization for this examiner's amendment was given in a telephone interview with Barry Josephs on October 28, 2006.

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Cancel claims 40-67.

Art Unit: 1745

Allowable Subject Matter

5. Claims 22, 24-29, 31-32, 35-39 and 68 are allowed.
6. The following is an examiner's statement of reasons for allowance: none of the prior art of record appear to teach or reasonably suggest the method of Claim 22. The amendment further defines the method whereas the prior art methods are materially different and do not include the claimed mold and compaction process defined in the independent claim, as well as adding a fluid to the anode cavity of the cell to activate a gelling agent in the anode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Double Patenting

7. The double patenting rejection in this application has been withdrawn. The terminal disclaimer filed October 16, 2006 has been approved.
